To Whom It May Concern:

I am endorsing Samantha Agtarap for Port Moody City Council in 2022. I have known Samantha for over 7 years, having first met her when I joined Engineered Bodies Strength and Conditioning – a business that she is co-owner of. Samantha has been a consistent advocate for effective policies on a range of issues, from housing to transportation to climate to homelessness. As a social justice advocate myself for over 35 years, and as someone who has extensive experience in community organizing, I support Samantha's thoughtful, fact-based approach to a variety of community issues. Of particular importance to me, as a Canadian, is working closely with, and supporting our First Nation communities. I know that Samantha has had experience working with these communities to help them develop more sustainable energy initiatives and climate action plans. And as a business owner in Port Moody for 10 years, where she has had extensive conversations and long term relationships with many people who live in the city, I know she must have a very good sense of what is happening in her community.

If you would like additional information about this endorsement, you can telephone me at 604-562-1522, or email [yfenton@factorgroup.com](mailto:yfenton@factorgroup.com)

Sincerely,

Yolanda Fenton
